

Company Overview

We specialize in providing high quality web sites, graphic design & corporate ID. We focus on creating advanced web sites & applications using tools such as JavaScript & PHP Frameworks, ActionScript & Ajax.

We developed a Content Management System which can be fully customized to ensure the desired functionality of your web application using the latest web technologies available.

It includes, but not limited to the following:

- User friendly administration
- Multiple language
- File management
- Customizable page templates
- eCommerce & Online payments
- SEFU & SEO
